

Recovery through Nature

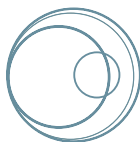

Coolmine TC's Recovery through Nature programme is a highly successful project that has been running since May 2014.

Under the guidance of a trained horticulturist and project worker, clients of Coolmine TC engage in practical conservation projects around Dublin and Wicklow and since the start of the programme have contributed in excess of 2800 hours to this endeavour.

This programme is highly beneficial to the clients of the Community, directly increasing retention rates at Coolmine TC to over 80%. It also hugely benefits environmental conservation efforts in Wicklow National Park, Bull Island, the Tolka Valley and other areas.

Further information about our Recovery through Nature project can be found on our website www.coolmine.ie
